

# BENEFITS & FEATURES

A quick guide to the benefits and features that are found in RURO's LimitLIS® solution.

## LIMITLIS® BENEFITS + FEATURES

LimitLIS® is a progressive LIS solution that is browser-based for complete diagnostic laboratory workflow management that supports CLIA compliance and HIPAA-related security and privacy provisions. It is a cloud-based solution that can be securely accessed anywhere and on any device by clients, patients, and laboratory staff. RURO strives to make LimitLIS® relevant to laboratory needs and is regularly updated with new and improved features to make laboratory workflows and processes faster and more efficient. Some of the key features and benefits of LimitLIS® include:

### INTEGRATION

#### BENEFITS TO YOU

Increased efficiency and accuracy through direct integration.

Your lab saves time, increases cash flow, and reduces manual data entry errors.

Peace of mind with HIPAA-compliant, secure HL7 exchange.

Reduce costs by choosing an integrated RCM solution – no need to spend money and time developing a custom integration.

Save money and staff time by avoiding the extra development time for a custom billing services interface.

#### FEATURES

LimitLIS® can be directly linked to your existing **instruments** via uni- or bi-directional integration.

With LimitLIS®, diagnostic data automatically gets submitted to your **EMR/EHR** providers via secure HL7 messaging.

LimitLIS® includes integration with industry-leading **billing services** providers, such as PractiSource, LLC.

## RESULT DELIVERY + REPORTING

#### BENEFITS TO YOU

Save money by increasing efficiency and reducing turnaround times.

Grow your client base by delivering reports in the format they prefer, without increasing staff effort.

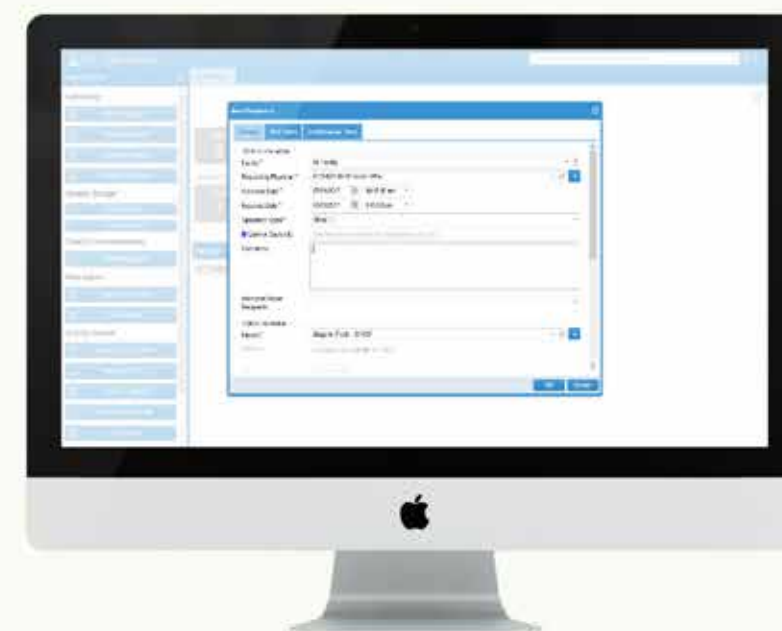

Peace of mind that you have a mechanism to allow lab staff to amend reports and send corrected results back to your clients – all with detailed and annotated audit log records for transparency.

#### FEATURES

LimitLIS® can automatically deliver result reports to providers in their preferred format and delivery destination option as soon as they are available.

Report Formats include instant web access via the Client Portal, PDF download, and Fax delivery options.

LimitLIS® includes a report correction workflow.

## QUALITY CONTROL

### BENEFITS TO YOU

Save time and ensure the accuracy of your lab results by expertly managing your QC data.

You'll always be ready for an inspection – it's easy to review any current or prior QC result records.

### FEATURES

LimitLIS® provides easy QC management with configurable QC rules, automatic Levey-Jennings graphs, and user-definable lots and expiration dates.

LimitLIS® electronically stores your qualitative and quantitative QC data, making it easy to review any current or expired records, and ensuring that your lab is always ready for an inspection.

## PATIENT/CLIENT PORTAL

### BENEFITS TO YOU

Convenience and efficiency – your clients, patients, and staff can securely access information anywhere and on any device.

User-friendly – you can access the system via the web without having to install any additional software.

Increase profit by adding and retaining customers who value a modern and professional laboratory.

Increase your profits by reducing turnaround time. Move from sample to report to billing faster than ever!

### FEATURES

The Client and Patient Portals (optional) are fully-integrated into LimitLIS®. All portals are cloud-based, which provides users to access it from anywhere and at any time.

The Portals are customized to represent your laboratory.

Clients submit paperless e-Requisitions and review test results as soon as they are released by your laboratory from any internet-enabled device through a web browser without having to install any additional software.

## CLOUD BASED

### BENEFITS TO YOU

Save money by reducing the need to employ your own IT staff or purchase IT infrastructure. Simply enter the URL, login, and start using the system.

### FEATURES

LimitLIS® is a cloud-based solution with all the security needed to keep your information safe and secure.

## BUSINESS LOGIC

### BENEFITS TO YOU

Save time and eliminate interpretation errors with automated annotation and flags.

### FEATURES

LimitLIS® captures and automatically annotates results outside of age-specific and gender-specific reference ranges with flag indicators and configurable interpretation comments.

Increase efficiency and improve patient care by configuring follow-up tests to be automatically ordered based on the results of the primary test.

LimitLIS® features configurable rule-based reflex testing.

Provide a user-friendly solution for each of your clients.

LimitLIS® supports creation of custom test panels to accommodate client specific testing. Test panels can be tailored for each client and ordering will be limited to that client.

Never forget to perform monthly activities, destroy expired reagents, or complete other routine tasks.

Configurable alerts notify you of urgent matters - chose to view, dismiss, or perform actions within alerts.

Easy to understand metrics allow you to gain better insight when making decisions to improve performance in your lab.

Identify opportunities to reduce expenses and increase profits.

LimitLIS® laboratory management dashboard provides key analytical data displays and charts for your laboratory including staff testing volumes, laboratory turnaround time performance (TAT), sample volumes, EMR/billing reports, and analyzer status.

## **LIMITLIS: THE LABORATORY INFORMATION SYSTEM WITH LIMITLESS POSSIBILITIES.**

RURO strives to develop and deliver high quality solutions that increase laboratory efficiency. Many laboratories are using out-dated technology in their labs and are frustrated with the results. RURO specializes in LIS and RFID solutions and is constantly re-evaluating and adjusting its solutions to guarantee the best quality and efficiency in the solutions.
